

CARE *for the* JOURNEY *Messages & Music for Sustaining the Heart of Healthcare*

Produced by Michael Stillwater and Gary Malkin

Executive Producer, Mary Matthiesen

Care for the Journey is a wonderful distillation of the teachings of healing leaders that can help healthcare workers reconnect with their reason for entering this field.

*-Beginnings Magazine, June 2005
American Holistic Nurses Association*

Care for the Journey is an educational audio resource for the enrichment of healthcare professionals. Speaking to the roots of emotional, mental and spiritual stress, it is a powerful and elegant distillation of innovative teachings restoring the heart of healthcare.

In this follow-up volume to the acclaimed book and CD set, *Graceful Passages: A Companion for Living and Dying*, the creative team of Stillwater & Malkin bring forth an experiential response to the stresses which care professionals encounter on a regular basis, containing messages from healthcare leaders distinguished by their presence and authenticity.

Following a tradition of excellence in production, this Audio Resource, featuring spoken words together with a film-score quality soundtrack by Emmy-award winning composer Gary Malkin, makes a beautiful gift for a healthcare professional in your life, and offers benefits for family caregivers as well.

A portion of proceeds benefits Companion Arts, the nonprofit partner of Wisdom of the World, who guided the direction and development of *Care for the Journey*. Voices include:
